MORDAX

Frosted polycarbonate finish

see page 73

• Compatible with Microwave presence detector 73352,

· Supplied with mounting brackets & anti-tamper clips.

The Mordax is an IP65 LED anti-corrosive batten that is 110+Im/W providing up to 50% energy savings compared to traditional fluorescents. A highly efficient solution for both interior and exterior applications. The Mordax Range of standard and high lumen output luminaires are constructed from vandal-resistant polycarbonate making them shock, impact resistant and IK08 rated. Multiple drill-out conduit entry points are fitted on the housing and combined with the loop in loop out push fit terminals as well BESA compatible entry points make it incredibly fast and simple to install. A 5 year warranty as standard.
